

# 14'x12' GARDEN GAZEBO

Instructions apply to Part Number 9392-642

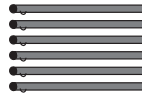

## When You Are Ready To Set Up Your Shelter

- Select a level area clear of rocks, branches and other hard or sharp objects.
- Do not assemble your shelter under trees.
- For easier set up, two or more people are recommended.

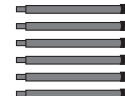

## ASSEMBLY PARTS

Center Hub(1)  
Part No.  
9392-2351

Cupola Top Pole (6)  
Part No.  
9392-3131

Cupola Eave Pole (6)  
Part No.  
9392-3121

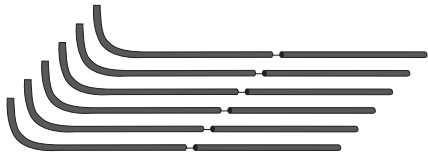

Ground Pole Hub (6)  
Part No.  
9392-3011

Eave Hub (6)  
Part No. 9392-3021

Corner Hub (6)  
Part No. 9392-3031

Overhead Poles (6)  
Part No. 9392-3141

Eave Poles (6)  
Part No. 9392-3111

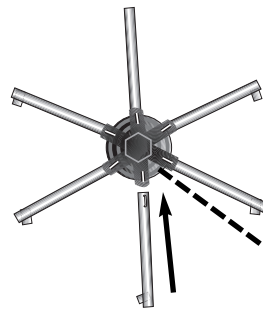

Ground Poles (Green) (6)  
Part No. 9392-3101

Leg Poles (6)  
Part No. 9392-3151

## 1 Pole & Hub Assembly

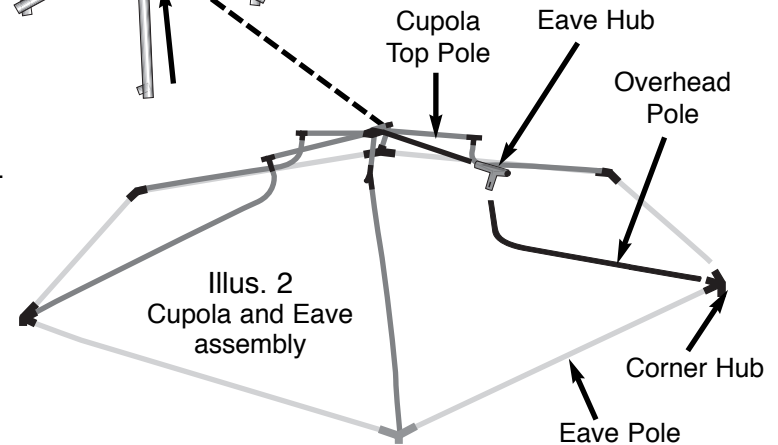

- Begin with the Center Hub and Cupola Top Poles.
- Insert the clip end of Cupola Top Poles into the center hub and connect one pole at a time to the hub. (illus. 1)
- Attach the Eave Hub to the open end of the Cupola Top Pole (illus. 2)

Illus. 1  
Cupola Top Poles  
inserted into Center Hub

## 2

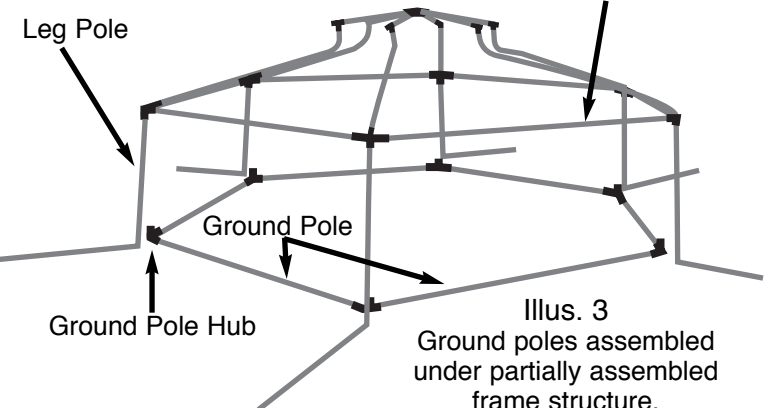

- Assemble shock-corded Eave and Overhead poles.
- Connect the Overhead poles to the bottom opening of the Eave Hub. (illus. 2)
- Attach Corner Hubs to Overhead Poles. (illus. 2)
- Connect the Eave Poles to Corner Hub. This will make a six sided hexagon shape. (illus. 2)

Illus. 2  
Cupola and Eave  
assembly

## 3

- Insert one end of the Leg Pole into bottom of the Corner Hub. Do not fully assemble the Leg Pole. Leave the lower section laying on the ground. (illus. 3).
- Repeat for remaining Leg Poles.

Ground poles assembled  
under partially assembled  
frame structure.

## 4

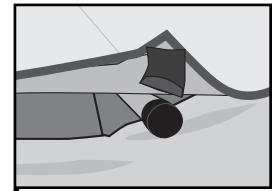

- Assemble the shock-corded Ground Poles.
- Working under the partially assembled frame, insert one end into the 3 sided Ground Pole Hub. The center opening should be pointing up. (illus. 3)
- Insert the other end into a second Ground Pole Hub. Continue by adding another Ground Pole to the open side of the Ground Pole Hub until you can close the loop, forming a hexagon shape. (illus. 3)

# 5 Attach Shelter to Frame

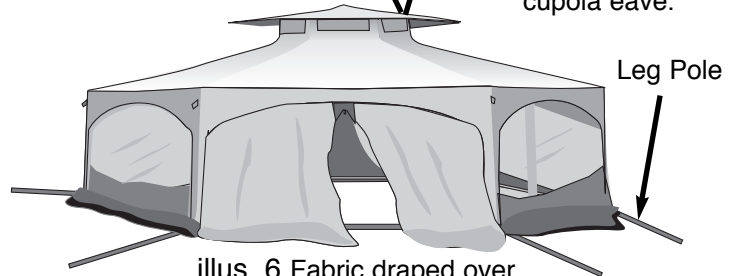

- Drape the canopy over the frame (illus. 6)
- You may need to stand inside the frame to adjust the Cupola over the poles.
- Pull back the cupola eave fabric find the openings for the Cupola Eave Poles. You should be able line up the openings with the open end of the Cupola Top Poles. (illus. 4)
- Connect the Cupola Eave Pole to the Cupola Top Poles through the fabric opening. (illus. 4)
- Now pull the Cupola Eave fabric out over the Cupola Eave Pole until you can insert the pole end into the pole pocket on the underside of the eave fabric. (illus. 5)
- Position the fabric corners over the pole corners. (illus. 6)
- Secure fabric to frame by attaching hook & loop fasteners around poles.

illus. 6 Fabric draped over partially assembled frame

# 6 Stand-up Shelter and Connect to Ground Poles

- Fully connect the Leg Poles to stand the shelter up.
- Align the Ground Pole assembly so the Hubs are directly in front of the Leg Poles
- Lift one of the Leg Poles and insert it into the Ground Pole Hub. Repeat for other Leg Poles. (illus. 9)
- Insert the brass hook into the hole near the base of the pole (illus. 7)
- Adjust hook straps to increase tautness. (illus. 7)
- Attach guy lines to fabric guy loops at each corner and stake out. (illus. 8)

Insert Brass Hook into hole near the base of the pole

## Things You Should Know

- Never store shelter, even for a short period of time, without drying it thoroughly and brushing off caked dirt. Do not pack stakes or poles inside your shelter. Use separate storage bag.
- STAKES SHOULD BE REMOVED BY PULLING ON THE STAKE ITSELF. NEVER PULL ON THE SHELTER FABRIC OR STAKE LOOP TO REMOVE STAKE.
- SHELTER POLES SHOULD NOT BE LEFT TELESCOPED TOGETHER DURING STORAGE.

**WARNING: Keep all flame and heat sources away from this shelter fabric.**  
This shelter meets the flammability requirements of CPAI-84. The fabric will burn if left in continuous contact with any flame source. The application of any foreign substance to the shelter fabric may render the flame-resistant properties ineffective.
